ROTAVAL

Keeping the World's Industries Solidly in control

**Rotary Valve for the
Pharmaceutical and
Food Industries**

'Hypergienic'
Rotary Valves

Range of sizes 100-300 mm

**Certified 10 barg Explosion
& Flame Containment**

ROTAVAL 'Hypergienic' Rotary Valves are designed to meet the critical needs of the pharmaceutical and food industries

300 mm 'Hypergienic' Rotary Valve Isolator version

Developed in co-operation with the pharmaceutical and related industries, the fully fabricated design embodies a range of dedicated features that validate the design and construction for the specified duty.

The innovative and flexible design allows for variation to individual units to meet customer specific requirements

Features and options include:

- Rapid access
- All surfaces self draining
- Full clean-in-place (C.I.P.)
- Fully tested and certified against 10 barg internal explosion and flame containment
- Special multi-function shaft seal design including FDA double lip seal assembly providing clean-in-place, drying, leakage monitoring & air purge
- Flanged, quick-clean or customer standard inlet/outlet connections
- Pharmaceutical standard seals provide secure joint between body, end covers and inlet/outlet connections
- Isolator version (Glove Box)
- Validation documentation

150 mm 'Hypergienic' Rotary Valve Isolator version
