

## Your partner for continuous mixing processes

- Mixing
- Conditioning
- Reaction processes
- Agglomeration/Granulation
- Extrusion pre-mixes
- Flavouring
- Coating
- Heat transfer

### **The benefits include:**

- Improved quality
- Cost effective solutions
- New products

Machines are available for trials at your premises or at our test center.

# Your partner for continuous mixing processes

## References

### **Food**

- Dessert powders
- Breakfast beverages
- Sugar preserves
- Spices
- Cereal and fruit bars
- Potato powder/water
- Infant foods
- Salt
- Maize starch/colour agents/ aromas
- Milk powder/cereals/vitamins
- Milk powder/sugar/oils
- Museli
- Chocolate powder/oil
- Chocolate/nougat/nuts
- Vanilla sugar

### **Animal food/concentrated foods**

- Vitamin additives

### **Plastics**

- Base/regrind/masterbatch
- Resin/masterbatch/additives
- Stabilizer/additives
- Plastic granules with stearate
- Nylon granules/premix
- PE-powder/masterbatch granules
- PVC granules/flakes
- PVC/limestone/plasticiser
- Talc/granules

### **Chemicals**

- Additives
- Aerosol/salt
- Drugs/solvents
- Enzymes
- Filter cake/additives
- Granules/stearat
- Na-hydroxide/Ca-oxide/liquid
- Oxide/binder/water
- Pesticides/liquid
- Fungicides
- Salt/phosphates/molasses
  
- Sewage sludge granules/water

### **Detergent**

- Bentonite/enzymes
- Detergent/perborate/carbonate

### **Building material**

- Limestone powder/water
- Marble powder
- Fireclay/clay
- Sand/quartz
- Alumina powder/zeolite
- Vermiculite/binder
- Cement/bentonite/water
